Description:

From the front lines of the battle against Islamic fundamentalism, a searing, unforgettable book that captures the human essence of the greatest conflict of our time. Through the eyes of Dexter Filkins, the prizewinning New York Times correspondent whose work was hailed by David Halberstam as “reporting of the highest quality imaginable,” we witness the remarkable chain of events that began with the rise of the Taliban in the 1990s, continued with the attacks of 9/11, and moved on to the wars in Afghanistan and Iraq. Filkins’s narrative moves across a vast and various

landscape of amazing characters and astonishing scenes: deserts, mountains, and streets of carnage; a public amputation performed by Taliban; children frolicking in minefields; skies streaked white by the contrails of B-52s; a night's sleep in the rubble of Ground Zero. We embark on a foot patrol through the shadowy streets of Ramadi, venture into a torture chamber run by Saddam Hussein. We go into the homes of suicide bombers and into street-to-street fighting with a battalion of marines. We meet Iraqi insurgents, an American captain who loses a quarter of his men in eight days, and a young soldier from Georgia on a rooftop at midnight reminiscing about his girlfriend back home. A car bomb explodes, bullets fly, and a mother cradles her blinded son. Like no other book, *The Forever War* allows us a visceral understanding of today's battlefields and of the experiences of the people on the ground, warriors and innocents alike. It is a brilliant, fearless work, not just about America's wars after 9/11, but ultimately about the nature of war itself.

... only the dead have seen the end of war *The Forever War* is a treasure. A reader could find most of what is worth saying about the What, Why and Wherefore of America's engagement in Afghanistan and Iraq. Dexter Filkins spent 3 and a half years in Iraq, from the beginning of the invasion to the sad state of civil war and the collapse of that society resulting from that conflict and was essentially fearless in going where he needed to go and talking to whom he knew needed to be interviewed, plus a term as Embedded Journalist during the Marines storming of Fallujah. He knew The Story was evolving and he pursued it. He was in Afghanistan before the invasion working there for the Los Angeles Times when the Taliban were in control and OBL and the Arabs were training for Jihad. Returned when the reaction to 9/11 launched the Allied invasion and stated until moved by the New York Times to Iraq. He never seemed to have lost the journalist quest for finding all components of The Story; that is the beauty of this book. The "Bad Guys" are to him Insurgents but as he notes "Insurgent" is a necessary but imprecise term and its meaning was in a state of flux as time passed. Returning home and having the time and support to write this book he notes that he had to greatly simplify his response to the question "What was it like over there?", because eyes would begin to glaze over. Do we really want to know? For those who do this summary is a must.
